You may also wish to search for programs under: Clinical Informatics (Anesthesiology), Clinical Informatics (Emergency Medicine), Clinical Informatics (Family Medicine), Clinical Informatics (Internal Medicine), Clinical Informatics (Pathology), and Clinical Informatics (Pediatrics).
July	Colon and Rectal Surgery	The program directors in Colon and Rectal Surgery have introduced a new standard Colon and Rectal Surgery Candidate Assessment form for applicants applying to Colon and Rectal Surgery. This form (formerly Standard LOR) now includes space on page 3 for a traditional letter for letter writers that prefer the traditional letter. The new standard candidate assessment form is the only required letter of recommendation document. A traditional letter is not a requirement and will only be accepted if included on page 3 of this candidate assessment form and not as a separate document. A copy of the Colon and Rectal Surgery fellowship recommendation form can be obtained at the following link: Colon and Rectal Surgery Resident Candidate Assessment Form .

July	Geriatric Medicine (Family Medicine)	Most Geriatric Medicine (Family Medicine) programs are available to candidates from both Internal Medicine and Family Medicine backgrounds. You may also wish to search for programs under Geriatric Medicine (Internal Medicine). Contact programs directly to find out their specific requirements.
July	Geriatric Medicine (Internal Medicine)	Most Geriatric Medicine (Internal Medicine) programs are available to candidates from both Internal Medicine and Family Medicine backgrounds. You may also wish to search for programs under Geriatric Medicine (Family Medicine). Contact programs directly to find out their specific requirements.
Dec	Interventional Radiology - Independent	<p>Diagnostic Radiology residents should apply as either an ESIR Applicant or as a Non-ESIR Applicant. ESIR Applicants must be accepted into an ACGME approved Early Specialization in Interventional Radiology curriculum within their diagnostic radiology residency.</p> <p>ESIR Applicants must include an ESIR Applicant Diagnostic Radiology Program Director Standardized Letter of Recommendation as part of their ERAS Interventional Radiology-Independent application. The template for the letter can be downloaded here: letter template. ESIR applicants should give the standardized letter template to their diagnostic radiology program director who must complete all four sections before uploading the letter to the ERAS Letter of Recommendation Portal (LoRP).</p> <p>Non-ESIR applicants do not need to use the standardized letter.</p> <p>For more information about the independent IR residency match, visit: IR residency match. For more information regarding the qualifications for ESIR, visit: ESIR qualifications. Before submitting your independent applications, make sure to check for final application tips, visit: application tips.</p>

Residency Specialties

Cycle	Specialty Name	Important Specialty Information
Sept	Anesthesiology	The COVID-19 pandemic has caused significant disruptions to medical education across the country. ASA has released guidance around their application cycle.
Sept	Dermatology	The COVID-19 pandemic has caused significant disruptions to medical education across the country. The Dermatology Residency Program Directors have released guidance around their application cycle.
Sept	Emergency Medicine	<p>The COVID-19 pandemic has caused significant disruptions to medical education across the country. CoPA has released guidance around their application cycle.</p> <p>The Council of Emergency Medicine Residency Directors has introduced a new Standardized Letter of Evaluation (SLOE) form for those applying to Emergency Medicine.</p> <p>To request a SLOE, please send your letter author the ERAS Letter Request Form (that should include your ERAS Letter ID), and the SLOE website link (SLOE), which has instructions for completing the Form and information on eligibility requirements.</p>
Sept	Internal Medicine	The COVID-19 pandemic has caused significant disruptions to medical education across the country. AAIM has released guidance around their application cycle.
Sept	Internal Medicine/Pediatrics	The COVID-19 pandemic has caused significant disruptions to medical education across the country. Internal Medicine/Pediatrics is following the application guidance released from AAIM and AAPD/COMSEP/AMSPDC for their application cycle.
Sept	Neurological Surgery	<p>The COVID-19 pandemic has caused significant disruptions to medical education across the country. The Society of Neurological Surgeons have released guidance around their application cycle.</p> <p>Organized Neurological Surgery is pleased to provide information for medical students applying to Neurological Surgery. Visit the Medical Students section on the Society of Neurological Surgeons website -</p>

		http://www.societyns.org/ . It includes a variety of information including guidance on external rotations, lectures, match information, and a listing of interview dates that is updated each September 1st for the upcoming season.
Sept	Neurology	The COVID-19 pandemic has caused significant disruptions to medical education across the country. The AAN has released guidance around their application cycle.
Sept	Obstetrics and Gynecology	The COVID-19 pandemic has caused significant disruptions to medical education across the country. APGO and CREOG have released guidance around their application cycle.
Sept	Orthopaedic Surgery	<p>For letters of recommendation to orthopaedic surgery residency applications, the American Orthopaedic Association’s (AOA) Council of Orthopaedic Residency Directors (CORD) requests an Electronic Standardized Letter of Recommendation (eSLOR) as a replacement for a traditional narrative letter of recommendation. A separate written letter of recommendation is not necessary if utilizing the eSLOR.</p> <p>After sending the request form to your author(s), visit the eSLOR Applicant page on the AOA website. You must first sign an agreement and enter your ERAS AAMC ID before letter author(s) can begin an eSLOR.</p>
Sept	Otolaryngology - Head and Neck Surgery	<p>The COVID-19 pandemic has caused significant disruptions to medical education across the country. SUO/AADO/OPDO have released guidance around their application cycle.</p> <p>Applicants interested in pursuing Otolaryngology have the option to participate in a preference signaling system. Signaling provides a clear, reliable method to demonstrate sincere interest to programs and may improve the likelihood of an interview offer. Applicants are advised to consult with their Designated Dean’s Office (DDO) and faculty mentors for application guidance and counseling. If you have any questions, please visit the Otolaryngology website or contact form.</p>

Sept	Pediatrics	The COVID-19 pandemic has caused significant disruptions to medical education across the country. APPD, COMSEP, and AMSPDC have released guidance around their application cycle.
Sept	Physical Medicine and Rehabilitation	The COVID-19 pandemic has caused significant disruptions to medical education across the country. The AAP's Residency & Fellowship Program Directors (RFPD) Council has released guidance around their application cycle.

Sept	Preventive Medicine	<p>Preventive medicine physicians save lives, create healthier communities, and transform our healthcare system. With an expertise in population health, preventive medicine physicians bridge the divide between public health and clinical practice. Preventive Medicine’s three specialty areas share common core competencies, but emphasize different populations, environments or practice settings: 1) Public Health/General Preventive Medicine (PH/GPM), 2) Occupational and Environmental Medicine (OEM) and 3) Aerospace Medicine (AM).</p> <p>PH/GPM specialists apply their expertise to improve the health of large populations and address today’s biggest health care challenges. They work in a variety of settings, including physician practices, health systems, state and local health departments, Fortune 100 companies, and all levels of government. http://www.acpm.org</p> <p>OEM deals with population & individuals, by promoting health & productivity, prevention & treatment of illness and injury in workers & in people and environmental exposures. https://acoem.org</p> <p>AM promotes the health and well-being of crew and passengers involved in air & space travel. http://www.asma.org</p>
